

Roma, 21/10/2021

Caro socio,

l'IG-IBD è una Società di rilievo nell'ambito nazionale ed internazionale, con progetti estremamente interessanti e obiettivi molto validi nel medio e lungo termine. Credo che ciascuno di noi debba mettersi al servizio della Società, nella quale ogni gastroenterologo che si occupa di IBD ha possibilità di crescere e far crescere gli altri.

Mi propongo come membro del Comitato Direttivo, perché credo di poter dare un contributo importante all'IG-IBD sotto vari aspetti, mutuando anche l'esperienza maturata in anni di coinvolgimento attivo nella ECCO, e dopo il duro lavoro fatto per 4 anni nel coordinamento del Comitato Scientifico IG-IBD.

Se sarò ritenuto all'altezza di far parte del Comitato Direttivo, lavorerò con impegno per i seguenti obiettivi:

1 Obiettivi generali

1.1 Standardizzazione di qualità dei Centri IBD in Italia

Ho coordinato per la ECCO un progetto di definizione di parametri minimi di qualità delle cure che devono essere garantiti ad ogni paziente, e dei requisiti indispensabili per qualificare un Centro di riferimento. Tale proposta si è concretizzata in un documento (ECCO Position Paper) che ha proposto una lista di parametri minimi di qualità che dovranno essere presenti in ogni Centro IBD. Uno dei miei obiettivi sarà quello di lavorare anche a livello italiano per adattare questo progetto alla realtà italiana, facendo sì che l'IG-IBD si faccia garante della qualità dei Centri associati. Questo è un bene per i pazienti, che potranno afferire a Centri di riferimento certificati, e un bene per i Centri, perché servirà da stimolo per mantenersi a livelli di eccellenza in maniera duratura.

1.2 Promozione di network Centri IBD

Sulla base della standardizzazione dei Centri sopra descritto, mi impegnerò perché a livello locale e nazionale, si promuova la collaborazione tra Centri a basso ed alto volume di pazienti cosicché si crei una rete collaborativa di assistenza che sfrutti al massimo le varie competenze e risorse disponibili nelle nostre Unità. Questo servirà a limitare la migrazione dei pazienti verso Centri lontani dal proprio domicilio e a fornire ai Centri con meno possibilità tutto il supporto da parte dei grandi Centri di riferimento più vicini.

1.3 Collaborazione con la ECCO e con le altre Società IBD in ambito europeo

La IG-IBD ha avviato un'ottima collaborazione con il GETAID e con altre Società di altre nazioni. Nel mio periodo da Chair del Comitato Scientifico IG-IBD, ho proposto e messo su una collaborazione scientifica all'interno del gruppo dei 4Nations, in maniera tale da poter proporre studi multicentrici congiunti tra GETAID, GEDII, GETECCU e IG-IBD.

A livello ECCO, siamo una delle Nazioni più attive, con persone di alto livello nei vari Comitati, ma serve una maggiore collaborazione e una maggiore attenzione alle attività che verranno portate avanti a livello ECCO. Mi impegnerò perché l'IG-IBD abbia la possibilità di proporre e sfruttare l'apporto di persone meritevoli che possano avere voce a livello europeo.

1.4 Criteri oggettivi e trasparenti di scelta

L'IG-IBD è chiamata a scegliere e valutare molte persone per vari compiti, dai Comitati, alle Commissioni, ai Relatori di Corsi e Congressi, ai partecipanti al corso ECCO. Uno dei miei obiettivi è

quello di stabilire criteri oggettivi e validi per tutti, basati su meriti e CV, in maniera tale da rendere tali procedure snelle e trasparenti, in linea già con quanto la Società sta facendo, per esempio, con la valutazione degli studi clinici IG-IBD e con la selezione dei membri del prossimo Comitato Scientifico.

1.5 Ottimizzazione del lavoro del Direttivo

Al momento, l'impostazione del Consiglio Direttivo non prevede particolari compiti per ciascuno, se non per il Segretario. Questo può creare un po' di rallentamenti nell'attività del Comitato. Sull'esempio della ECCO, proporrò di formalizzare un membro del Direttivo che faccia da referente per lo Scientifico e uno per l'Educazionale, in maniera tale da avere mandato dal Direttivo di gestire le normali attività dei due Comitati in maniera da rendere tutto più veloce e lineare, e senza dover aspettare il parere di tutto il Direttivo. Proporrò inoltre che un membro faccia da Liason Officer insieme al Segretario per poter facilitare anche i rapporti con i vari partners di IG-IBD.

2) Obiettivi scientifici

Promozione e supporto di studi IG-IBD multicentrici prospettici.

Il Comitato Scientifico ha portato avanti una rivoluzione positiva nella gestione degli studi clinici. Ad oggi, la sottomissione, l'approvazione e la conduzione degli studi clinici tiene conto soprattutto della qualità scientifica e della copertura dei costi, oltre allo spirito di collaborazione. Continuerò a supportare il più possibile il Comitato Scientifico su questa linea, in particolare nel controllo del rigore metodologico degli studi, del rispetto dei tempi, della responsabilità dei promotori e degli sperimentatori e della corretta e proficua gestione dei fondi.

Come Chair del Comitato Scientifico ho messo su un sistema di registro dei pazienti inseriti negli studi per poter implementare la facilità con cui si portano avanti gli studi IG-IBD. Ho anche lavorato per il reclutamento di una Clinical Research Assistant (dr.ssa Carola Lauritano) che ha aiutato enormemente i Centri a portare avanti gli studi proposti. Sarà mia cura che questa struttura rimanga o, se necessario, venga implementata. Nell'ultimo anno, la produzione scientifica IG-IBD ha raggiunto il record assoluto di pubblicazioni ed impact factor in tutta la storia della nostra Società

Linee guida IBD italiane

È importante che le linee guida ECCO siano adattate alla realtà italiana, in questo l'IG-IBD gioca un ruolo chiave. Mi impegnerò, sulla base dell'esperienza che molti Soci hanno già con le linee guida ECCO su 2 punti:

- Produzione di linee guida italiane che non riproducano fedelmente quelle della ECCO, ma che siano indispensabili alla realtà italiana
- Organizzare in maniera più snella i gruppi di lavoro, in maniera tale da facilitare il compito dei leaders nella stesura e nel completamento delle linee guida entro i tempi prefissati.

3) Obiettivi formativi

Scelta dei relatori e dei Centri per eventi formativi

L'attuale assetto di corsi e opportunità formative proposti dall'IG-IBD è ampio e di alta qualità. Proporrò anche qui di ottimizzare la scelta dei relatori e dei Centri ospitanti tenendo conto della pluralità di offerta a livello italiano, della necessità di dare opportunità di crescita e visibilità ai piccoli e medi Centri, ma garantendo anche parametri di scelta basati su CV, esperienza riconosciuta, autorevolezza scientifica e trasparenza di giudizio.

Proposta di corsi

Credo che IG-IBD debba dare la possibilità, soprattutto ai giovani in formazione, di confrontarsi con aspetti che non vengono sistematicamente insegnati nei corsi Universitari. Proporrò al Comitato Educazionale, come già fatto con la Y-ECCO per gli educational workshops, di valutare la possibilità di fornire momenti formativi su:

- metodologia di ricerca clinica (dall'ipotesi scientifica alla pubblicazione)
- presentazione e discussione di dati scientifici, soprattutto legati agli studi IG-IBD
- costruirsi una carriera nelle IBD
- gestione di risorse sanitarie e management sanitario

Spero di poter contare sul tuo supporto per portare avanti questi obiettivi.
Un caro saluto

A handwritten signature in black ink, appearing to read "Gianni Fava".

INFORMAZIONI AGGIUNTIVE

Premi

2019: Pfizer research grant INNOVARE su "Lipid profiles in patients with ulcerative colitis treated with tofacitinib profile: understanding the mechanism of action." Euro 50,000
2017 ECCO Vifor Grant su "Efficacy of iron supplementation in patients with inflammatory bowel disease and chronic fatigue" - Euro 40,000
2014: Best abstract, Digital Oral Poster Presentation, Session 4, ECCO Congress, Copenhagen (DK)

Certificazioni

10 04 2017-10 04 2023: Abilitazione Scientifica Nazionale a Professore Associato in Gastroenterologia - MIUR - Italia

Progetti principali

2021-2026: Coordinatore del progetto ECCO E-QUALITY sugli standard di cura nelle IBD
2020-2021: Membro del Consensus Panel nelle linee guida ECCO su Gravidanza e Allattamento nelle IBD
2020-2021: Leader del gruppo di lavoro nelle linee guida ECCO su tumori maligni e IBD
2019-2021: Membro del Consensus Panel sulle linee guida ECCO basate su GRADE sulla terapia nella colite ulcerosa
2019-in corso: Membro del Consensus Panel sulle linee guida IG-IBD basate su GRADE sulla terapia biologica nelle malattie infiammatorie intestinali
2018-2020: Coordinatore del progetto ECCO: "Quality of Standards of Care in IBD"
2018-in corso: Coordinatore del Registro Nazionale sui Biosimilari nelle IBD per conto del Gruppo Italiano per le IBD (IG-IBD)
Ottobre 2017-2020: Coordinatore delle Linee guida ECCO basate su GRADE sulla terapia nella malattia di Crohn
Marzo 2017-in corso: e-Guide Champion per l'ECCO
<http://www.e-guide.ecco-ibd.eu/about-us2017-2021>
Principal Investigator nel trial randomizzato controllato multicentrico europeo *A Phase II, multicentre, double-blind, randomised, placebo-controlled study of Rifaximin delayed release 400 mg tablet: clinical efficacy and safety in the prevention of post-operative endoscopic Crohn's disease recurrence* EUDRACT 2017-002258-36
Ottobre 2016-Ottobre 2017: Working Group leader per l'ECCO "Diagnostic and Monitoring Consensus"
2014 - Bibliographic Fellow per la International Organization for the Study of Inflammatory Bowel Diseases (IOIBD) Progetto STRIDE (Selezione di bersagli terapeutici nelle malattie infiammatorie intestinali)
2010 - Principal investigator nello studio di validazione dell'indice di gravità endoscopica della colite ulcerosa (UCEIS)
2008-in corso Sub-investigatore in più di 150 studi clinici randomizzati multicentrici di fase 1-4 sulle malattie infiammatorie intestinali

Memberships

Agosto 2018-attuale: Associate Editor del Journal of Crohn's and Colitis (JCC)
Gennaio 2018-in corso: Chair del Comitato Scientifico del Gruppo Italiano di Malattie Infiammatorie Intestinali (IG-IBD)
Ottobre 2016-Marzo 2019: Membro ECCO CONFER
Febbraio 2015-Febbraio 2018: Membro del Comitato delle Linee guida (GuiCom) della European Crohn's Colitis Organisation (ECCO)
Febbraio 2015-luglio 2018: Membro dell'Editorial Board del Journal of Crohn's and Colitis (JCC)
Gennaio 2014-gennaio 2017: Membro del Comitato Scientifico del Gruppo Italiano Malattie Infiammatorie Intestinali (IG-IBD)
3 aprile 2014: Membro del Consensus IO-IBD "Treat to Target"
Giugno 2010: Membro della WHO Consensus Conference su "ICF Core Sets for IBD" - Nottwil (CH)
Ottobre 2006 - Marzo 2009 Presidente della Young European Crohn's Colitis Organization (Y-ECCO)
2006-oggi: Membro dell'European Crohn's Colitis Organisation (ECCO)

2006-in corso: Membro del Gruppo Italiano - Malattie Infiammatorie Intestinali (IG-IBD)

2005-2009: Membro della Società Italiana di Gastroenterologia ed Endoscopia Digestiva (SIGE)

19 luglio 2012-in corso: Licenza Medica - OMCEO Milano n. 42409

30 marzo 2005-19 luglio 2012: Licenza Medica - OMceO Bari n. 12903
